—APPLY—

Mr. and Mrs. Jacoby  
BUTLER THEATER, TONOPAH

Have you a "silent" musical instrument in your home? Unless it's anchored there by sentiment, let a "for sale" ad in the Bonanza find a buyer for it.

If it's of exceptional value at the price, it's sure to be advertised in the Bonanza, else the merchant would be hopelessly unprogressive.

BIG FOUR MINE AT  
MANHATTAN HAS THREE  
YEARS ORE IN SIGHT

Special to the Bonanza

MANHATTAN, Nov. 5.—The Big Four mine has easily three years' ore in sight for the new mill the company is about to erect and this on a basis of treating 150 tons a day. In fact, it looks more like there was five years' ore in sight than three.

At present on one dump there are 900 tons of ore that will plate \$20 a ton. On another there are 150 tons that will plate \$100 a ton. Various odds and ends above ground will bring the milling ore—that running above \$15—which is already hoisted to 1200 tons or more.

Inside of a week, if a force of men were put to work breaking down ore and it were hoisted as rapidly as broken down another 5000 tons could be brought to the surface, which likewise would average \$20 a ton or better, and a great deal of it would run \$75 a ton.

That is a bare mention of the loose material around the mine which is now ready for going under the stamps immediately. It does not include any of the vast reserves that have been put in sight since the company purchased the Steen-Poak-Cicala lease and determined upon a plan of erecting its own mill. The east drift on the 200-foot level alone is out 300 feet from the shaft and in milling ore on all sides and no walls every foot of the way. In its course at something over 250 feet is encountered a north and south cross ledge and that has been drifted upon for a considerable distance in both directions. All of the ore in the

main east drift and in the south portion of the north and south one samples a few cents better than \$20 a ton. That in the north drift samples \$29.80. Both are holding up their values and neither is showing any signs of a wall or of country rock. On this level alone there is enough ore blocked out to make a glory hole about ten times as large as the one between the 300 and 400 where the leasers took out \$300,000.

Near before was a level opened at the 100-foot depth. That is being done now and there is a 50-foot drift easterly and a 40-foot one southerly. Both are in low grade ore all the way which will be treated as second grade stuff at the company mill.

On the 400-foot level a crosscut and two raises show an ore body, as yet without walls, which at present is ten feet wide and averages \$75 a ton. This is an extension of the old glory hole ore body and much richer. It makes toward the hanging wall side and strikes northwesterly. Superintendent E. C. Maguire has demonstrated that it will make a larger glory hole than the old one, that being 45 feet wide. He has tapped this ore on the 300 as well. Its outlines also have been reached between the 400 and 500 levels by crosscutting from the 165-foot raise connecting those levels. Your representative panned some of this ore and got a panning easily worth \$100 a ton without mortaring. If the rock had been mortared it would have gone \$200. The values in this shoot run as high as \$5000 a ton.

The raise from the 500 enters the old glory hole at its very center and its lowest point, though the work was done without a survey. It is on a line to connect up the old ore shoot from the 500 to the 400, which it does as far as down as 480 feet, but not far enough to catch the heart of the new showing with the \$75 average values.

After showing your representative and Bart Cicala, one of the former leasers, through the mine yesterday, Mr. Maguire declared that it would be a greater mine than the Belmont at Tonopah and that for the amount of work done and depth attained it was a greater mine now.

JOE COOK of Manhattan, accompanied by Mrs. Cook, motored over from the northern camp yesterday and returned home today.

## AMUSEMENTS

Butler Theater

One of the best shows seen at this popular place of amusement for some time will be given tonight. An excellent program of pictures are as follows: "Believe Me of All Those Endearing Young Charms," suggested by Thomas Moore's famous poem, "Bunny's Suicide," a Vitaphone comedy and a sure laugh maker; "The Half Breed's Sacrifice," a Lubin western drama and another Kalem war feature entitled "The Darling of the C. S. A." On Thursday evening "The Great Arrow," a magician, will open here for a three days' engagement in some up-to-the-minute magic. Miss Billie Bennett will also be seen and heard for three days, beginning Thursday. Miss Bennett is a character song artist, and as both of these clever people have played all of Levy's time they are sure to please.

Tomorrow a four-reel feature entitled "The Blighted Son," showing how the wild and reckless deeds of a son beggars his father and kills his mother. His trials finally cause him to see the folly of his way. How he breaks the chains that hold him enslaved is a story which has all the requisites of a peerless drama.

This picture has been stamped by all who have seen it as the grandest dramatic triumph of the age.
